

MinRex Resources Completes RC Drilling at Fraser Range Copper-Gold Project in Western Australia

[MinRex Resources Limited](#) (ASX: MRR) has announced the successful completion of a Reverse Circulation (RC) drilling program at the [Fraser Range Copper-Gold Project](#), located roughly 120 kilometres northeast of Esperance in the prolific Albany-Fraser Belt of Western Australia. The drilling targeted five high-priority geophysical and structural targets, advancing MinRex's footprint in one of Australia's most promising mineral provinces.
